

Navigation Bar:

Module/Component	Testing	Result
Navigation Tabs	Tested the functionality of the tabs in the navigation bar by checking to see if tapping on each tab correctly redirected to the desired page. Also tested to check if the correct name of the redirected page was displayed correctly, and showing the correct icon in the navigation bar.	Pass

Settings Page:

Module/Component	Testing	Result
Sign Out Button	Tested the functionality of the sign out button to make sure that the button completely signs the user out of the application, not leaving any user data left inside the application so that it is not loaded when a different user signs in.	Pass
